

EasyLED Delta Bollard

Contemporary Series, B12EQ

PRODUCT OVERVIEW

The contemporary Delta Bollard provides pedestrian and parking area lighting with a slender, clean, and unobtrusive appearance. The specially designed optics offer a soft, low-glare uniform lighting ideal for a wide range of applications including parking areas, walkways and landscape accents.

The durable extruded aluminium housing is finished with a weather-resistant textured powdercoat finish providing years of service. The vandal-resistant, UV-stabilised Opal LumaLens produces a Type V distribution with a soft uplight to light walls and adjacent landscape elements. The fixture offers high efficiency 12 watt EasyLED Arrays and choice of three color temperatures (3000K, 4000K and 5000K), that produce up to 1,320 delivered lumens. Easily replaces 50 watt legacy HID systems, with an energy savings of 80% or more versus comparable Metal Halide systems.

CONSTRUCTION

Durable extruded aluminium
Polycarbonate lens
Stainless steel hardware
Opal LumaLens for Soft Lighting with Uplight Component

EFFICACY

Up to 112 lumens per watt
Excellent thermal management for LED longevity
80% energy savings over traditional Metal Halide

DRIVER

1-10V Dimmable Driver
CE Certified Driver
Surge Protection Standard

APPLICATIONS

Multi-family Housing
Office Parks
Walkways
Parks
Plazas
Landscaping
