

EasyLED B81 Contemporary Bollard

PRODUCT OVERVIEW

The Contemporary B81 Bollard provides pedestrian and parking area lighting and complements our B8T Light Column. Opal LumaLens diffusers offers excellently controlled, uniform lighting. Typical applications include parking areas, walkways, and landscape accents.

LEDicated *SoftLED*

The durable one-piece extruded aluminum housing is finished with a weather-resistant textured powdercoat finish providing years of service. The precision vandal-resistant, UV-stabilized opal polycarbonate optical lens produces a Type V distribution and protects the internal components. Multiple wattages available from 16-22 watt EasyLED Arrays and choice of three color temperatures (3000K, 4000K and 5000K), which produce 1,470-2,850 delivered lumens. Easily replaces 70-100 Watt legacy HID systems, with an energy savings of 80% or more versus comparable Metal Halide systems.

Designed to match our B8T Contemporary Light Column
