

# Serviceable vs. Disposable

**REUSE IS THE  
NEW RECYCLE**

Does recycling lighting produce the best environmental outcome?

- Don't Crowd Our Landfills With Cheap Throw-Away Fixtures!
- Fewer Parts to Dispose Of
- Lower-Cost Service Options
- Easy to Change Arrays & Drivers 

**save** 

QSSI's Family of Brands offers long-lasting, cost-effective LED lighting solutions. Our expertly constructed fixtures can be serviced for less than the price of replacing throw-away fixtures.

Sustainable QSSI luminaire benefits include:

- + Fixture housings will outlast internal components
- + Unlike throw-away fixtures, our luminaires can be opened and are serviceable.
- + QSSI array boards designed specifically for every luminaire allows for reconditioning, repairing, and upgrading in existing applications.

 **don't waste money**

You are throwing away money when you throw away a fixture. The market is filled with throw-away fixtures that can not be serviced or repaired.

The cost of replacing a throw-away fixture can include the replacement fixture, labor, rental cost of tools, and more.
