

# EasyLED Winchester Round Bulkhead WPR20EQ

## PRODUCT OVERVIEW

The low-profile Winchester Round Bulkhead is ideal for a range of exterior and interior applications including building entrances, stairwells, and walkway lighting. Full open face and half-cutoff options allow the light to be directed where needed. Other options include photocells, sensors, and emergency battery backup, so you can customise the fixture for each project. Custom colours are available too!

The Winchester's durable die-cast aluminium housing and half-cutoff front frame are finished with a weather-resistant powdercoat finish providing years of service. The vandal-resistant, UV-stabilised polycarbonate SoftLED LumaLens produces a soft, uniform low-glare light that is easy on the eyes while offering excellent illumination. Available in three colour temperatures (3000K, 4000K and 5000K), the 17 Watt EasyLED array yields up to 2,510 delivered lumens. The Winchester is designed to replace outdated 100-watt metal halide systems.

### CONSTRUCTION

Die cast aluminium  
Polycarbonate lens  
Textured architectural powdercoat finish  
No glass lenses

### EFFICACY

Up to 139 lumens per watt  
Excellent thermal management for LED longevity  
85% energy savings over traditional metal halide

### DRIVER

1-10V Dimmable Driver  
CE Certified Driver  
2kV Surge Protection Standard

### APPLICATIONS

Retail Centres  
Restaurants  
Hotels  
Schools & Universities  
Office Buildings  
Medical Facilities

### EXTRAS

Photocells  
Sensors  
Emergency Battery Backup
